The DIGITUS® Compact Series is made for high demand IT-Infrastructure Solutions - designed and developed on highest standard in Germany

The DIGITUS® Compact Series is a range of 19" wall mount enclosures developed for installation of both cabling and equipment. The enclosures are special designed to save a lot of space and are ideal for use a wide range of applications in the 19" area. The enclosures are designed for an optimal performance and come with a lot of features like quick release front door and fully adjustable profiles. The access on the top and the base of each cabinet makes the installation of the cabling very flexible, easy and time-saving. A full range of DIGITUS® accessories are available to complete the installation of the wall mounting cabinets with professional products.
